

## Room Preparation Guide

Thank you for choosing Canyon Painters. At Canyon Painters we are known for great value and great service. To ensure your project goes as smoothly as possible, please remember to prepare your space so we can deliver the service you expect. The following should be done before your Canyon Painters team arrives:

### Interior Painting:

-  **Furniture:** If possible, move all heavy furniture into the center of the room, at least 2 feet away from walls. All remaining items in the room will be covered with new plastic sheeting.
-  **Valuables, Collectibles, and Electronics:** since we cover furnishings with plastic sheeting we ask that you remove all valuables, fragile items, and electronics from the room if possible. If electronics must stay in the room, please **DISCONNECT** them from the wall outlets.
-  **Wall Hangings:** Pictures, paintings, mirrors, wall shelves, art, and tapestries should be removed. If replacing the wall item in the same location, simply leave the hook or rod in place, and let us know.
-  **Window Treatments:** All shades, blinds, curtains, and valances should be removed. Please let us know if you need any assistance.
-  **Closets:** Please remove all contents from closets and kitchen pantries that will be painted.
-  **Light Switch Covers, Outlets, and Fire Detectors:** No action is needed. Canyon Painters will remove and replace ALL light switch covers and electrical outlet covers. We will mask all thermostats, permanent light fixtures, security system panels, and fire detectors as needed.
-  **Doors and Window Hardware:** If you have contracted us to paint doors and/or windows, please leave all knobs, locks, and handles installed. We will mask and paint around them. If you would like us to paint behind knobs, locks, and handles, Please remove them ahead of time so they are ready when we arrive.
-  **Bathrooms and Wash Facility:** Please provide a **working bathroom** in case nature calls and a **place to access water**.

---

### Exterior Painting / Pressure Washing:

-  **Water Source:** We will require a **water source** on all exterior projects.
-  **Power Source:** We will require access to an **electrical outlet** on all exterior projects.
-  **Trees and Bushes:** Please prune so we the Painters have a minimum of 2 feet of clearance.

**Please don't hesitate to call or text if you have any questions. Thank you for your business.**
